

What Kind of Love

Willie Nelson

I'll give you the best I can give you, baby
That's all I can give
And we'll live it the best we can live it, baby
As long as we live

What kind of love never turns you down?
What kind of love lifts you off the ground, turns your life around?

What kind of love makes you go out in the wind and the driving rain?
What kind of love runs through your heart with a pleasure so close to pain?
What kind of love? Only this love I have

I'll show you the best I can show you, baby
That's all I can show you
And I'll know you the best I can know you, baby
As long as I know you

What kind of love never turns away?
What kind of love never makes you pay, hears you when you pray?

What kind of love makes you go out in the wind and the driving rain?
What kind of love runs through your heart with a pleasure so close to pain?
What kind of love? Only this love I have

This love I know is all I have
This love I have is all I know
So I won't let go

What kind of love makes you go out in the wind and the driving rain?
What kind of love runs through your heart with a pleasure so close to pain?
What kind of love? Only the love I have
What kind of love? Only this love I have
