

Wheels

Willie Nelson

You get it right
You get it wrong
The years grow shorter but the days are long
So get it up
And get it on
And just keep your love runnin' 'til the wheels come off

It feels alright
It feels all wrong
It's all one day and it's one long song
I'm gonna laugh all night
Howl at the dawn
I'm gonna keep my love runnin' 'til the wheels come off

It feels so good
To let you go
My mind moves faster now and my heart beats slow
I thought I might just let you know
I'm gonna keep my love runnin' 'til the wheels won't roll

We're down to go
Down to the wire
The noise gets louder and the seas get higher
The world gets cold
And the scene gets dire
But we're gonna keep our love runnin' 'til the wheels catch fire
We're gonna keep our love runnin' 'til the wheels catch fire
We're gonna keep our love runnin' 'til the wheels catch fire
