

# Will You Remember

**Willie Nelson**

Sweet is the song when the song is love love that has stood the  
test of time  
And when you've heard all the songs of love will you remember m  
ine  
Gone are the times that I walked with you and held your hand in  
mine  
Now when you hold another's hand will you remember mine  
I have sat neath the trees while the cool summer breeze  
Blew away the sands of time  
And thought of days when you were near remembering when you wer  
e mine  
Gone are the times when I held you close and pressed your lips  
to mine  
Now when you kiss another's lips will you remember mine  
I have sat neath the trees...
