

Southern Belle Raisin' Hell

Willow Avalon

Summer swells sweet sixteen
Met my man in a fever dream
He's setting up for a double wide
He works a double at the chevron every night
But he learned fast by the end of fall
I got my momma's mouth and my daddy's drawl
My granny said that a love would hurt
Tried to warn them all but they never learn

If you two time this little lady
You're gonna see a long line of family crazy
Don't call me baby when you done me wrong
Gonna learn to pray when you piss me off
Heaven knows you're gonna cry for help
'Cause when you ring this southern bell
You're gonna raise some hell

Twenty one and the liquors sweet
Met an older man liked his whisky neat
We fell fast but the truth hit hard
When his ticked off wife walked in the bar
He learned quick by the end of the night
Got my sister's sass and my brother's bite

If you two time this little lady
You're gonna see a long line of family crazy
Don't call me baby when you done me wrong
Gonna learn to pray when you piss me off
Heaven knows you're gonna cry for help
'Cause when you ring this southern bell
You're gonna raise some hell
You're gonna raise some hell

Lord, help him y'all

I'd rather be alone then with a fool
Who makes me madder than a raging bull
Won't take the fall, won't take no blame
Now they won't forget my name

If you two time this little lady
You're gonna to see a long line of family crazy
Don't call me baby when you done me wrong
Gonna learn to pray when you piss me off
Heaven knows you're gonna cry for help
'Cause when you ring this southern bell
You're gonna raise some hell
You're gonna raise some hell
You're gonna raise some hell
You're gonna raise some... hell
