

4ever

Willow

The sun falls over the mountain
Ooh, you were my lifeline
It feels like a lifetime ago
When we first met, I was out my head
And so were you
I can't imagine ever going back now
And I never want to see you turn your back now
But I know you wanted to, know you wanted to, know you wanted to
O
Wow

I know, you know, we know this can't last forever
I know, you know, we know this can't last forever
I know, you know, we know this can't last forever
I, I know
