

Believe That

Willow

I've been looking for some hope I need that
I've been out here tryna cope believe that

I've been looking for some hope I need that
I've been out here tryna cope believe that

I've been looking for some hope I need that
I've been out here tryna cope believe that

I don't care don't care
What you started to say
I rule this place
From the dawn through the day
And I try you know
I try you know
I try
To keep myself far away from the dark
I know it's hard
But I try you know
I try you know
I try

I've been looking for some hope I need that
I've been out here tryna cope believe that

I've been looking for some hope I need that
I've been out here tryna cope believe that

I've been looking for some hope I need that
I've been out here tryna cope believe that

I was just a kid now I'm grown
(Now I'm grown)
Lately I've been looking for some hope
(Hella hope)
Baby I've been feeling so alone
I've been out here tryna cope

I was walking down the street
In my black skin
Feeling hella proud to be
In my black skin
Hey mama look at me
In my black skin
I was killed by the police
In my black skin

I've been looking for some hope I need that
I've been out here tryna cope believe that

I've been looking for some hope I need that
I've been out here tryna cope believe that

I've been looking for some hope I need that
I've been out here tryna cope believe that

I've been looking for some hope I need that

Yeah! I need that
