

Underneath the golden sky
Fighting for a lifetime
But oh, my feet are slipping now
And I feel so tired

I thought that I would have the strength
But I'm so out of my element
So frozen in the moment
With flowers all around

Let go
Come and claim me as your own
From now on
I depend on you alone

Unlimited, original, sweet, subtle
Deepest of the deep
Seen by the sages
Om namo bhagavate vāsudevāya
Sit on the lotus of my heart

Unlimited, original, sweet, subtle
Deepest of the deep
Seen by the sages
Om namo bhagavate vāsudevāya
Sit on the lotus of my heart

Unlimited, original
Om namo bhagavate vāsudevāya
Sit on the lotus of my heart

Let go
Come and claim me as your own
From now on
I depend on you alone
Let go
I hold a flower in the air
Let go
This is my prayer
