

# Gaslight

Willow

I had to tell her, just stop messing with my head  
And love me instead  
It's not official, but I think it's common sense  
Or am I insane  
I blew out the gaslight, now I feel a different way  
I'll just love me instead  
Love me instead  
Love me instead

I like you, you like me  
That's why I'm confused, I can't read the signs  
So why you gotta treat me like this?  
I just need to breathe so I don't go apeshit  
When I wake up  
I see you at night in my dreams  
Yeah that too, and I  
I just need some closure, can you hit my line, yeah

I had to tell her, just stop messing with my head  
And love me instead  
It's not official, but I think it's common sense  
Or am I insane  
I blew out the gaslight, now I feel a different way  
I'll just love me instead  
Love me instead  
Love me instead

Confused  
I'm right here, so what we gon' do?  
Act like there's something to lose  
But there ain't none, but there ain't none  
You really tryna  
(Waste my time)  
I need to get you  
(Out my mind)  
We'll break the cycle  
(In due time, in due time)

I had to tell her, just stop messing with my head  
And love me instead  
It's not official, but I think it's common sense  
Or am I insane  
I blew out the gaslight, now I feel a different way  
I'll just love me instead  
Love me instead  
Love me instead
