

Fell asleep when you drove me home  
Got too faded and raged  
You had nothing to say when I split  
Tried to call you, you don't answer your phone  
You're the only, only, only  
I guess I was wrong to assume  
Inside I knew I hadn't decided  
So I tried to hide it

You're the only, only, only  
I guess I was wrong to assume  
Inside I knew I hadn't decided  
So I tried to hide it

We never talk a lot  
I need to see you 'cause you're on my mind  
And say, "I never wanted  
I never wanted this for us"  
I'm always acting tough  
Close my heart and now I starve the love  
And no, I never wanted  
I never wanted this for us

Pour patience over me  
While my heart slowly breaks  
Never makin' a sound  
Even amongst the jagged pieces  
That always lead to the ground  
To move is agony  
And now I can only think  
About how

We never talk a lot  
I need to see you 'cause you're on my mind  
And say, "I never wanted  
I never wanted this for us"  
I'm always acting tough  
Close my heart and now I starve the love  
And no, I never wanted  
I never wanted this for us

No  
I never  
No  
I never

We never talk a lot  
I need to see you 'cause you're on my mind  
And say, "I never wanted  
I never wanted this for us"  
I'm always acting tough  
Close my heart and now I starve the love  
And no, I never wanted  
I never wanted this for us
