

# Trees

Willow

Come with me, climb some trees  
Come with me and you will see  
Come with me, climb some trees  
Come with me and you will see

No one can teach you to see, no one can teach you to breathe  
To see the beauty in you, to see the beauty in trees  
To see the beauty of who you always wanted to be  
No

Just ride with me, ride with me  
Just fly with me, fly with me  
To see the beauty in life, to see the beauty in strife  
To see the beauty in space  
Astral project and just fly

It actually scares me, scares me  
It actually scares me, scares me  
Imagine being alone in space  
Passing by planets and passing by Pleiadians

I'm radiating life  
I'm radiating life

Come with me, climb some trees  
Come with me and you will see  
Come with me, climb some trees  
Come with me and you will see  
Yes, you will see

Climb some trees, climb some trees, climb some trees  
And you will see  
Meet some plants, meet some plants, come with me and you will  
Dance! Dance! (we will dance)  
Dance! Dance! (together, together, forever, forever)  
Come with me, meet some plants, climb some trees, and we will dance!
