

ur a <stranger>

Willow

The least you could do is find someone else
The least you could do...
I know the least you could do is find someone else
The least you could do...

She used to be mine
Now she's yours and that's fine
Guess I ran out of time to please
I never thought I'd be angry
You're so fuckin' shady
I gave you your lady
Such a shame you'd forget
Me, me
Me, me

The least you could do is find someone else
The least you could do...
I know the least you could do is find someone else
The least you could do...

I can't see you
I don't fuckin' need to
You think you're so good together?
Oh my God, yeah, me too!
You're a stranger
When I see you, I don't speak
See you, I can't breathe
You're a stranger
When I see you, I don't speak
See you, I can't breathe

Breathe, breathe
Breathe, breathe
I can't
I can't
I can't
I can't, I can't breathe
