

## UR Town

## Willow

My temple  
My temple

I wanna hear your heart beat  
The steady hum of your Merkaba spin  
Everything, even thoughts about me  
When I wake up in the morning time  
I think about my past lives  
Was I with you? Were you with me?  
We're living in a fantasy, babe it's all a dream  
It's kinda hard to see  
You need the heart to see  
You need the heart to see, oh see

What's going down in your town? I  
I'm riding 'round in the night  
My body is moving, I'm tryna get groovin', yeah, yeah  
What's going down in your town? I  
I'm riding 'round in the night  
I'm tryna get groovin', let's go to the beach and jump in

Oh they trusted her and she tried to be  
Everything that they want her to  
But she had to see what she could do  
And all the things that she would not  
So, tell me one thing  
Is it really bad to have experience?  
Then you know for yourself  
Rather than sit home and believe in this  
They said, "Willow don't touch that" (oh no)  
I looked and walked and then I went and touched it (oh)  
They said, "Don't walk fast"  
I took off running and was not near stopping

What's going down in your town? I  
I'm riding 'round in the night  
My body is moving, I'm tryna get grooving, yeah, yeah  
What's going down in your town? I  
I'm riding 'round  
I'm gonna go, baby, the frequency  
You wanna roll with me?

Broken  
Two shards that fit together  
Hoping  
More come together  
To make a piece of art  
Bigger than anything that we could imagine  
To make a piece of art  
That raises the whole vibration of Gaia (oh)  
Going right back to the road

What's going down in your town? I  
I'm riding 'round in the night  
My body is moving, I'm tryna get groovin', yeah, yeah
