

## WHY?

Willow

I don't wanna keep feelin' alone  
Isolation got me goin' psycho  
I just wanna, I just wanna stop asking myself, "Why?"  
I don't wanna keep bein' alone  
Isolation got me goin' psycho  
I just gotta, I just gotta stop questioning my life

Ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah  
Ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah

Don't know what's true  
My mind's talkin' shit, throwin' fits  
All the layers peelin' back for you  
You knew I was scared, but you weren't there  
Don't talk about it, talk about it

Can't grieve now for you, I'm focused  
All you gave me was a hole in  
My heart, now it's a scar  
And you don't even care  
And you don't even care

And you don't even care  
And you don't even care  
And you don't even care, no

I don't wanna keep feelin' alone  
Isolation got me goin' psycho  
I just wanna, I just wanna stop asking myself, "Why?"  
I don't wanna keep bein' alone  
Isolation got me goin' psycho  
I just gotta, I just gotta stop questioning my life

Ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah

There's no time for fight or flight  
Think I'm gonna freeze, no peace in my head  
Instead I'm faded, findin' new heights  
Swayin' with the trees  
Angels speak to heal the weakness in my heart  
I don't even know where to start or when to stop I said  
"No time for fight or flight," I think I'm gonna freeze

And you don't even care  
And you don't even care  
And you don't even care, no

I don't wanna keep feelin' alone  
Isolation got me goin' psycho  
I just wanna, I just wanna stop asking myself, "Why?"  
I don't wanna keep bein' alone  
Isolation got me goin' psycho  
I just gotta, I just gotta stop questioning my life
