

# She Loves Me

Willy Moon

I ain't gonna waste no more time  
See that girl she's so fine  
And I know that she's mine  
'Cause she said loves me and  
She said something to me  
Just wait and see how it's gonna be  
'Cause she said she loves me  
She said she love me now  
She really love me now

She's my baby and I think I love her too

She, she said something to me  
Just wait and see how it's gonna be  
'Cause she said she loves me  
She said she love me now  
She really love me now

She's my baby and I think I love her too

She said she love me now  
She really love me now  
Well she's my baby and I think I love her too
