

# Evil

Wind And Fire Earth

Evil, runnin' through  
our brain,  
we and evil's about the same.  
Bad blood through our body flows,  
where's the love nobody knows.

Beauty in our face you see,  
tryin' to hide all our misery, but  
Evil, runnin' through my brain,  
me and evil are about the same.

Evil... in our life  
Evil... causin' strife

Lookin for a place to gild a little light  
in our souls and minds  
Maybe if we learn to pray  
life would lend us sunshiny days.  
And evil runnnin' thru our brains  
turn to love and won't be the blame.
