

Hold Me

Wind And Fire Earth

I really love the little things
Little things you say to me
Like tellin' me everyday
That I'm your world

I really love the way you kiss
Kiss me everytime
Everytime I see your
Beautiful face

Girl everything you do
Feels good
When I'm close to you
I feel so secure
I love...

Love it when you
Hold me
So closely
Feels good to me
Everytime

Baby I love the sweet perfume
On your body
Girl you know just how to get
Me in the mood

Baby I love the way you call
The way you call my name
When we make love
Over and over

Girl everything you do
Feels good
When I'm close to you
I feel so secure
I love...
