

## Mighty Mighty

Wind And Fire Earth

Walk around, why wear  
a frown  
Say little people, try to put you down  
What you need, a helpin' hand  
All the strength, at your command

How's ya faith? Cause ya faith is you  
Who you kiddin', to yourself be true  
Spread ya love, for a brighter day  
For what ya search, you'll find a way

We are people, of the mighty  
Mighty people of the sun  
In our hearts lies all the answers  
To the truth you can't run from

Eagle flies, every seven days  
Still cryin the blues, all about ya pay  
What ya gonna do? Bout your living thang  
Will ya make it better, or just complain

Everday is real, don't run from fear  
Cause better days are very near  
There are times when you are bound to cry  
One more time, head to the sky

We are people, of the mighty  
Mighty people of the sun  
In our hearts lies all the answers  
To the truth you can't run from
