

They Don't See

Wind And Fire Earth

They don't see what ya are to me
Guiding light

Saw a man the other day
Said he was givin' up his faith
Gonna turn his back on God
Make his way twice as hard
People say I'm a fool
But can I really be?
Say if it really was
Why the misery?

They don't see what ya are to me
Guiding light for all to see

Protestant and Catholics
Arabs and the Jews
Gonna turn your back on God
But is it really true?
Woman on the corner
She brings tears to my eyes
I really hate to see
People ruinin' lives, yeah

They don't see what ya are to me
Guiding light for all

Woman on the corner
She brings tears to my eyes
I really hate to see
People ruinin' lives, yeah

They don't see what ya are to me
Guiding light for all to see

Well, I'm readin' the news
Ain't nothin' changed, ain't nothin' improved
Pain comes down like the fallin' rain
But your soul, yeah, don't feel the same
When you love, love with all your heart
Give love, oh yeah, from the very start
I said when you love, love with all your heart
