

In the night
Praying for the wisdom
That will free our lands

Strong pride
Might and honor are required
To fight for the reign

Our destiny
Depending on the will of our majesty
There's no time for doubts and demands
I'm breathing an air of revenge

In my mind
I feel we won't again survive
But I have found myself

Candlelight
Embraced by the dark
Will we be free again?

Dear memories
I will say to this realm my last farewell
For the anger that hides my regret
Engaging the battle till the end

Tight in the ranks
I must await
A new dawn that will mean our salvation or pain
Facing the enemy in the name of the king
There is nothing that leads better than sorrow and tears

We believe in our triumph Majesty
New alliances are rising
We're defending and serving your name
There's no doubt on our way

As a cloud
Painted upon the sky
I will follow the wind
That will leave a mark on my faith
In the final day it will make me disappear

We believe in our triumph Majesty
New alliances are rising
We're defending and serving your name
There's no doubt on our way

We believe in our triumph Majesty
New alliances are rising
We're defending and serving your name
There's no doubt on our way
