

## This Just-In

Wind Walkers

You swallowed the pill and smoked through the ashes  
Followed your demons, resenting the masses  
Fooled me with words while I suffered your worst  
Helping you cope without feelings of worth  
But I'm here until the end, let's just hope it's not soon  
Shadowing you like the stars to the moon  
Reclamation is bleeding, it's far over due  
Feeling numb, sick, contagious, I'm lost without you

We're one and the same, born of our mother  
I'm sharing the blame as I cower for other  
Ways to make sense of the thoughtless comments  
Let me save you, I swear I can do this, I'll save you  
We're one and the same, born of our mother
