

Break The Rules

Windwaker

Oh hey, there mami
Where your mind at?
And if you've lost it, can we find that?
One long walk
To the wrong place
Did he leave you out here on a bad day?
Gotta let you know
Many years ago
That feeling never would have stopped

Hop in baby to the next stop
Maybe a grab a couple things
When we pass through to your bed spot
It's such a mess
Crossing our t's and dotting I's
There's no surprises
You think you're nice but when was nice ever the right thing?

You
Never really wanted to mess with me
To have a little fun and break the rules
The rules
You
Always try to bring out the best in me
But all I want to do is break the rules
The rules
Yeah

(You think you're nice but your nice won't do for me)

Oh, I think we're down in the pits
I tried to dig you out but you're pulling me in
Oh god
We could be living it up
Grinning your gums numb, nah
We just having some fun

You
Never really wanted to mess with me
To have a little fun and break the rules
The rules
You
Always try to bring out the best in me
But all I want to do is break the rules
The rules
Yeah

You have a way with me
Don't play with me no more
Come catch a wave with me
Don't play with me no more

I know I know I know
You don't follow follow follow
If it wasn't for old mistakes
We'd never fill our days

Okay then maybe can we backtrack?
I never thought I'd see you like that
We were just acting out it's really not that cruel
I'm a pretty motherfucker but I'll always break the rules
You better run

You think you're nice
Do what you like
Live life my way

You
Never really wanted to mess with me
To have a little fun and break the
Rules
(You can live without it)
The rules
(You can live without it)
You
Always try to bring out the best in me
But all I want to do is break the rules
(You can live without it)
The rules yeah!
(You always try to bring the best in me
You had your way
You had your way with me)

You have a way with me
Don't play with me no more
Come catch a wave with me
Don't play with me cause
All I wanna do is break the rules
