

Get Out

Windwaker

This masquerade
Toward uncertain ending
Miles away

I lost company
I lost most of me
And I gave everything
I had in me to make it work
And keep you happy

(Hey hey) there's an open door
To the brand new life you've been fighting for
I just (bang bang) wanna end it all
My mind awaits

I never wanted sell you out
You would just run your mouth
Did I stutter?
Get out get out
I never wanted sell you out
Just wanted to
Get the fuck out

This masquerade
Toward uncertain ending
Miles away
I lie awake with no conclusion
Get out get out
I can't find an exit
Get out get out
Bite the hand that holds you

Comfort me
With your symphony
Have it play me out as I walk out, dissolve into a silent fragment
Hey hey and the light goes out
Burned into my brain how they scream and shout
But I wait wait, wanna call you out
Cause the dirt looks great pouring out your mouth

What's your motive?
What's your motive?
What's your motive?
What the fuck is on your mind?
This is a call for the undenied
This is a mark on the moral kind

This masquerade
Toward uncertain ending
Miles away
I lie awake with no conclusion
Get out get out
I can't find an exit
Get out get out
Bite the hand that holds you

(I can't find an exit)

How you gonna say you're a real one?
Used to pop a lot of everything to feel some, oh
Made it out but your man's ain't healed up
Got a lot of things to say, let em peel out
Screaming like
How you gonna say you're real one?
Hold the mirror to my face, disappear now oh
If you say you gotta problem make it clear to us
Cause the loss of a life ain't a fear to us now
