

Haunting Me

Windwaker

Mossy water glazes over your reflection
Sometimes, I wish we never met 'cause
You always haunt me
Always with you
Always with you

I hate the face that you make when I stay dormant
Don't mean to sound so forward
You've always had me
Haunting my view
Haunting me

Always with you
I used to put you in control
Not sure I should have let you
Without you, I am nobody
But you just keep haunting me

You're the weight on my shoulder
The way you lurk from behind
The peace that I would have without you
Is a chance to realign
Remaining stuck in this moment
Where would I reside to be?
Without you, the one thing that I still need

Always with you
I used to put you in control
Not sure I should have let you
Without you I am nobody
But you just keep haunting me

Always with you
You were always talking your shit
Not sure I should have let you
Without you I am nobody
But you just keep haunting me

Always with you
