

# Left In The Dark

Windwaker

I had left me so long ago  
And I've been searching since  
Calling out with no (we don't talk no more)  
Answers to seek so the question repeats  
Why did you go?  
Is there something you know?  
I just want to be in your world  
(I just wanna be in your world)

Here I am letting you know

That if you feel alone  
I could be your miracle  
(I could be your miracle)  
And if truth be told you were sold  
A fairytale visual  
And if all was left in the dark  
Would you invite me into your heart?  
Tell me  
Do you wanna know if I could be your miracle?  
I could be your miracle

Our home has been taken with no chance to survive  
And searching for a saviour's left us eating ourselves from the inside

This urgency, is it worth our reaching?  
You're not listening but  
You just wanna speak

Everybody has a thought  
When they wanna get involved  
But the man de la snake  
Doesn't change  
I'm a beast, I'm amazing  
Imma keep it locked down  
Never break it

If you feel alone  
I could be your miracle  
(I could be your miracle)  
And if truth be told you were sold  
A fairytale visual  
And if all was left in the dark  
Would you invite me into your heart?  
Tell me  
Do you wanna know if I could be your miracle?  
I could be your miracle

Here I am letting you know  
An abandoned spark  
Forever left in the dark  
With how you left your mark  
I wish I saw this from the start  
But I'll move on  
And I'll float on

So if you feel alone

I could be your miracle  
And if truth be told you were sold  
A fairytale visual  
And if all was left in the dark  
Would you invite me into your heart?  
Tell me  
Do you wanna know if I could be your miracle?  
I could be your miracle
