

Love Language

Windwaker

I won't wait for no fate
Butterflies don't know my way
Cold to touch, I feel your face
Dark clouds, hurry, let's disappear
Settle in with
All our secrets here
Tell me is this real or is it fake?

Our love has no fare
It's a deathly-ill runaway
'Cause we know it's not safe
The best moments all seem to fade
Keep sleeping
All will soon be clear
Tell me is this real or is it fake?
Yeah!

I feel useless on stare
I feel desperate and unaware
I feel sick, but I'm fine
I've got tears under my eyes
You need heat
Sleep, I'll warm up your air
Tell me is this real or is it fake?

I feel useless on stare
I feel desperate and unaware
I still wait for your sight
I've been waiting all my life
Still sleeping
No one could compare
Tell me is this real or is it fake?

Tell me is this real or is it fake?
