

## Lucy

## Windwaker

I exit in through my mind no pain  
Breaking through I'm falling  
Synergetic with the night and day  
Duality, I'm floating

I'm lit up by the substance of reality  
All that's inside of me  
Dissolve this, take me away  
Separate truth from my brain

Body and soul  
We'll find the strength to let go  
I'mma take you outta here

I'm calling  
When I need you here with me  
I close my eyes and feel release  
Liberate me from my beliefs

I'm calling  
My body aches from the distance  
When I'm far away from you  
The world is bigger when I can't see your eyes

Privilege, strip the gold from my bones yeah  
Silver blood won't save you from discovering fear and love

I know you're searching for outta here  
But you've found it and it's right between your eyes  
Seasons come and they roll past  
Time flies  
I've been waiting to go

I'm calling  
When I need you here with me  
I close my eyes and feel release  
Liberate me from my beliefs

I'm calling  
My body aches from the distance  
When I'm far away from you  
The world is bigger when I can't see your eyes

Oh, the tunnels through me  
Will empty me and let me go  
I was sick but I am safe  
The energy glued to my fate  
I never needed all this weight  
Dissolve me and take my name  
I was sick, I am healing, running home

We all forget where we came from  
We are sick but we are safe

I'm calling  
When I need you here with me  
I close my eyes and feel release

Liberate me from my beliefs

I'm calling

My body aches from the distance

When I'm far away from you

The world is bigger when I can't see your eyes

Privilege, strip the gold from my bones

Silver blood won't save you from discovering fear and love
