

# Me + You, But Mostly Me

Windwaker

Ooh, ayy yo  
Just punch me in  
Hold the fuck up

Don't need anything but crazy ideas  
I know we're getting lucky when I see you appear  
Our secret's safe and sound  
'Cause I know what I've found  
Got 99 problems and I'm going down

Got 99 problems and I'm going down

You got me tongue tied  
Let's get outta sight (Got me tongue tied)  
To the place where hearts transcend (When I see you look at me)  
Let our bodies talk run before we walk (Got me tongue tied)  
And descend again and again (When I see you look at me)

And when the beat starts rolling I'll never stop  
'Cause your love calls like a hymn  
And the words you gave to my heart  
Welcome me to pain

But when I see you lookin' at me  
"Hey, what's up? Know I'm down"  
I need a pick me up  
You said ya got some things to relieve  
Need an out, it's too much  
Well that makes two of us

I see you look at me  
And words just ain't a thing  
I know it's too much  
Well that makes two of us  
I see you look at me  
And words just ain't a thing  
All I need is your touch  
Yeah, that makes two of us

You got my headlights  
Feelings outta sight  
In a place where love won't end  
But girl, this could die  
No more you and I  
What a shameful truth to bend

Let it go  
I'm waiting for rain to wash away  
All my sins  
Let it go

But when I see you lookin' at me  
"Hey, what's up? Know I'm down"  
I need a pick me up  
You said ya got some things to relieve  
Need an out, it's too much  
Well that makes two of us

I see you look at me  
And words just ain't a thing  
I know it's too much  
Well that makes two of us  
I see you look at me  
And words just ain't a thing  
All I need is your touch  
Yeah, that makes two of us

When I see you look at me  
I've been stuck in my own ways

I've been stuck in my own ways  
I feel lost, but I'm in my place  
Girl, I'm your drug and you're my game  
Wait on you, but it's always the same  
Don't say that you didn't want it  
We know that'd be dishonest  
What ya say? We're okay?  
I'm waiting on you  
(Don't fuck up the pace)

But when I see you lookin' at me  
"Hey, what's up? Know I'm down"  
I need a pick me up  
You said ya got some things to relieve  
Need an out, it's too much  
Well that makes two of us

I see you look at me  
And words just ain't a thing  
I know it's too much  
Well that makes two of us  
I see you look at me  
And words just ain't a thing  
All I need is your touch  
Yeah, that makes two of us
