

# Take Me With You

Windwaker

Closing time  
Can you remember where you drew the line?  
Chasing the thoughts to make them come alive  
Time is within the mind  
Your light dissipates when the darkness aligns  
Let go

When nothing's left at all we'll fade away  
Let go  
When nothing's left to drown  
Let go  
When nothing's left it all remains the same  
Let go now

What if I die  
What if I die today  
Would you remember me?  
For who I'm meant to be

What if I die  
What if I die today  
Would you believe that I was always there?

I can feel you below  
But I can't save you  
Nothing will bring you home to me

Lost in a sea of life  
I will never let go, I will never let go  
Cold on the other side  
I will never let go, I will never let go  
Believe in my dark disguise  
I will never let go, I will never let go  
Faceless of re-design  
I will never let go, I will never let go

Closing time  
Can you remember where you drew the line?  
Chasing the thoughts to make them come alive  
Time is within the mind  
Your light dissipates when the darkness aligns  
Let go

What if I die  
What if I die today  
Would you remember me?  
For who I'm meant to be

What if I die  
What if I die today  
Would you believe that I was always there?

What if I die  
What if I die today
