In Harmony with the Nature

Wine From Tears

And the moon turned
It face to the meadow
Can you see all this beauty indeed?
Do you feel every
Breath that you take?
Close your eyes
'Cause I beg you to keep...

You were not the first
Who came to this temple
But you are still it's beloved child
Show me a place
Where it hurts, I can heal
And show you how to live

In harmony with the nature For the world and peace Don' you see all your deeds Are destructive? You are chaos And you bring the death How it feels When the crown of creation Just can't live...? In harmony with the nature For the world and peace
