

## The Sinner

## Wine From Tears

Bury my face in your arms  
'Cause tonight I'm sinner  
And when she says that she is right  
She doesn't know the meaning

Follow my names when you sleep  
Search for another fool  
Don't try to trick me again  
That's all that I wanted to say

Search... for a church  
It overloads my madness  
Forgive... all your dreams  
I'm going to take you with me  
... you'll see
