Do or Die

Winger

You're running on empty
Gave up on your dreams
You're running from everything you could be
You used to believe
That you were invincible
Now you're lost in the night

Fight!
Get off your knees, you're far from forsaken
Fight!
To the death, no regrets, why you waiting?
It's your right!
The life you need is there for the taking
Fight!
Rise above the world that you're making

You can watch your life pass you by or you can free yourself
You can crack the sky, stand up
Dream big, it's do or die
Yeah

Knocked off your game
People telling you what you should be
But you're not the same, you know there's something more
You can touch the sun

Fight!
Be who you are, you're a star, it's your fate
Fight!
It's all you got, take your shot, it's not too late
It's your right!
Don't let it end this way, just keep the faith and fight
And you can rise and free your soul

You can watch your life pass you by or you can free yourself
You can crack the sky, stand up
Dream big, it's do or die
Yeah, oh

You can watch your life pass you by or you can free yourself
You can crack the sky, stand up
Give all you got
You can watch your life pass you by or you can free yourself
I wanna see you fly, stand up
Dream big, it's do or die
