

Call Me Back Again

Wings

Well when I, when I was
Just a little baby boy
Every night I would call
Your number brought me joy.

I called your house, every night since then
But I ain't never, no no never
Heard you calling me
Come on and call me back again...

Call me back again.

I've heard your name every night since then
But I aint never, no no never...

Well when I, when I was
just a little baby boy
Every night, every night
I would call because your number
brought me joy

Oh - I've called your name
every night since then,
But I aint never, no no no no never
Heard you calling me
Come on and call me back again.

Call me back again.
