

# I Would Only Smile

Wings

I'll begin my story now  
That you have set me free  
Girl, we've seen our ups and downs  
And always you will be

In my heart you are never very far  
And if I'm at any time asked if I've known love  
I would only smile

Smile and think of what we've had  
A very special thing  
And when sometimes I'm feeling bad  
I'll try remembering

All those happy days  
My sweet memory  
And if I'm at any time asked if I've known love  
I would only smile

And if your hand is reaching out  
I won't be far away  
We'll take our time and work it out  
And I would only smile, what could I say?

In my heart you are never very far  
And if I'm at any time asked if I've known love  
I would only smile

And if your hand is reaching out  
I won't be far away  
We'll maybe be not working out  
But I would only smile, what could I say?

I'll begin my story now  
That you have set me free  
Girl, we've seen our ups and downs  
And always you will be

In my heart you are  
Never very far  
And if I'm at any time asked if I've known love  
I would only smile

I would only smile
