In your world, there wasn't any place for me
Out of sudden,
I took a place because of some feelings
As time passes

That place was getting smaller so I got scared
But still I like you
For him I'm a burden
He has dreams
But our marvelous memories
Have taken over me

Even though I try to win over
The thick wall that named as love
Crushes me down

I know with my head
But my heart won't let you go
Even though everything collapses
I like you
Even though I want to throw away
Even though I want to forget
I like you
I like you

One reason
Which is love
That made me to promise
To keep us together
But as I grow taller
I crush down due to the high wall
Named reality

I know with my head
But my heart won't let you go
Even though everything collapses
I like you
Even though I want to throw away
Even though I want to forget
I like you
I like you

It's going to be okay
I tried to calm you down
But you said
You can see we are toward the end
I closed my eyes
And I'm sending our memories
On my tears

I know with my head
But my heart won't let you go
Even though everything collapses
I like you
Even though I want to throw away
Even though I want to forget
I like you
I like you
