Baby, let's leave together

Put your phone on airplane mode
If I'm with you
Wherever we are, it's a deserted island

Come come on ma
Come on ma girl
If you keep hesitating
Don't worry
All the things you're afraid of
I'll make that go bang
B-b-bang bang

I'm an arc above the horizon, just for you
If you're by my side, that place is treasure island
I'll save you from the prison of gray buildings
Just rest on the sand under the blue sky

Let's go, island
Let's go, island
With the waves over there
Come to me, go all in, into my embrace

Come closer to me
Closer to me
With the sun over there
Come into me, a hot goal-in

Let's go, island
To our island
Island

Under the palm tree over there
Let's have a glass of champagne
I'll be your island

Rather than the hot summer sun
I like your sunset smile
Like shaking a cocktail
I want to mix it up with you on the sofa

Shimmy shimmy ya
Shimmy shimmy ya hey
I wanna drive your smooth
Love handles skrrr skrrr
I'll make that go bang
B-b-bang bang

I'm an arc above the horizon, just for you

To our island
Island

Under the palm tree over there
Let's have a glass of champagne
I'll be your island

Here, nobody knows knows
It's our own island
It'll get dark soon
So let's light the fire

Here, nobody knows knows
It's our own island
No need to be self-conscious
Let's light the fire of love

Woahohoh island
Woahohoh island
Our island

Woahohohoh island

Under the palm tree over there
Let's have a glass of champagne
I'll be your island
