Let the game begin yo!

15 seconds left to the bomb, running
Out of breath, tick tock tick tock
It explodes before deciding between
The red line and blue line, the punch line
Don't provoke me because
I'm crazy, so what emergency,
I'm an ambulance, don't block my way, 119

It doesn't matter how I seem
I don't care no more even if I'm
Too young, yes that's all I know
It's fine if you curse at me, is all right, this is me
If you want, I'll show you, show you

I'm going crazy today
I can't control it tonight
Make it rough, ye crazy
I'm going crazy today, I'm going crazy
You'll be surprised and fall back

Now I wanna fly so the stage will fall back
I wanna shout louder and shake up your heart
I wanna go crazy so the stage will
Fall back, I wanna shout louder
Everybody get high high

Ok, I'm fearless boy
A boy who knows how to party
A boy who everyone goes crazy
Over and follows whatever I do
I'm hotter during the night
Than the day trust me and
I'll give you some fortune

Mino, the icon of twists
Me on stage? people call me psycho
A rapper who smacks you from
Behind, the bursting tension brr
A christopher with a w on his
Chest, stirring through the wind
When my eyes roll back, it's an all kill
Even if you try to tackle me, you'll miss, nah mean?

It doesn't matter how I seem
I don't care no more even if I'm
Too young, yes that's all I know
It's fine if you curse at me, is all right, this is me
If you want, I'll show you, show you

I'm going crazy today
I can't control it tonight
Make it rough, ye crazy
I'm going crazy today, I'm going crazy
You'll be surprised and fall back

Now I wanna fly so the stage will fall back
I wanna shout louder and shake up your heart

I wanna go crazy so the stage will
Fall back, I wanna shout louder
(Everybody get high high)

I don't need anything,
Just get out of the way
I don't know and I don't care,
Just please mind your own business

Don't I have a charm? please recognize me
What should I do? please look at me

Just another boy just another boy
I'm just another boy
Lolol a boy who doesn't care about anything
Just another boy just another boy
I'm just another boy
Hello hello everybody
I'm a different boy
