

# Control

Winona Oak

Last night, called you a hundred times  
Felt super lonely in my bedroom  
So lost I don't even know why  
You are feeling just like home

But sometimes I feel like time just passes by  
You got me losing control (got me losing)  
All day or night, won't make you satisfied  
You got me losing control (got me losing)

Oh when you're looking at me like that  
I know, I'm gonna lose my control  
And when you're touching me like that  
Oh no, you got me losing control

All night you got me tongue tied  
Can't find the words to speak my mind  
Got so high of being by your side  
Think I just lost all of my pride

But sometimes I feel like time just passes by  
You got me losing control (got me losing)  
All day or night, won't make you satisfied  
You got me losing control (got me loosing)

Oh when you're looking at me like that  
I know, I'm gonna lose my control  
And when you're touching me like that  
Oh no, you got me losing control  
You got me losing
