

Let Me Know

Winona Oak

Help me, I don't know how to begin
Never thought that I would let you in

But you're the one I choose
I belong with you
Every hand I lost
Has brought me something I can't lose

So if you love me, let me know
We don't have to fall so fast
Take it slow
Unless you want to hold me close
We can make a good thing last
Don't let go
You know perfect is impossible
But you've got me hoping
If the world is burning down
You're the one I'm holding
Don't let go

I've been tired of waking up alone
Second guessing, shaking on the phone

But you're the one I choose
I belong with you
Every hand I lost
Has brought me something I can't lose

So if you love me, let me know
We don't have to fall so fast
Take it slow
Unless you want to hold me close
We can make a good thing last
Don't let go
You know perfect is impossible
But you've got me hoping
If the world is burning down
You're the one I'm holding
Don't let go

I think of all the wasted time
We're standing on the sideline waiting for a sign
I found you there
No, nothing is a waste of time
I had to take a hit to learn to read the signs
I found you there

So if you love me, let me know
We don't need to fall so fast
Take it slow
Unless you want to hold me close
We can make a good thing last
Don't let go
You know perfect is impossible
But you've got me hoping
If the world is burning down
You're the one I'm holding

Don't let go

Don't let go
