

Same Same

Winston Surfshirt

You know I need
I got one trick up my sleeve
These people are making it
I was hoping to see
So good my mind
I got one thing on my mind
These beats keep taking time
But opposed there's a sea

You could be my contemplation, complication
Cos' nothing's changing in my conversation
You could be my fantasy
Eventually changing places with reality

She said
You so same
I hope I never change
I won't believe you're leaving me, God knows I'll be ashamed

You know that's true
These people keep making it so much harder to see
? just me
Got there so peace to peace
It's possible your breaking 'em
I'm still hoping to see

You could be my contemplation, complication
Cos' nothing's changing in my conversation
You could be my fantasy
Eventually, changing places with reality

She said
You so same
I hope I never change
I won't believe you're leaving me, God knows I'll be ashamed

You could be my contemplation, complication
Cos' nothing's changing in my conversation
You could be my fantasy
Efficiently changing places with reality

She said
You so same
I hope I never change
I won't believe you're leaving me, God knows I'll be ashamed
You so same
I hope I never change
I won't believe you're leaving me, God knows I'll be ashamed
