

## Forest Fire

## Wintersleep

You were a forest fire  
Burning effervescent through the night  
I was a drunk empire  
Looking for a light  
You were the wind at night  
Effortlessly blowing  
I will burn you in my mind  
I will burn you in my mind

You were the dead of night  
Burning in the embers of my eyes  
I was a distant light  
Shimmering after life  
You were the pre-dawn light  
Gleaming, ever-dreaming  
I will love you for all time  
I will love you for all time

Oh, the way I feel for you  
My love forever true  
The way I feel for you  
You have burned through my defenses

Oh, the way I feel for you  
My love forever-blooms  
The way I feel for you  
You've devoured all my senses

You were the forest fire  
You were a forest fire  
You were a forest fire (I love you for all time)  
You were a forest fire (burn you in my mind)  
You were a forest fire (burn through my defenses)  
You were a forest fire (devoured all my senses)  
You were a forest fire (I love you for all time)  
You were a forest fire (burn you in my mind)  
You were a forest fire (burn you in my mind)  
You were a forest fire (burn you in my mind)  
You were a forest fire (burn you in my mind)  
You were a forest fire (burn you in my mind)
