

I Got A Feeling

Wintersleep

I got a feeling the look in your eye
I got a feeling my love won't ever die
Despite the knowing that everything's the same
I got a feeling that I'm forever changed

You and I
Holy water
Burning sky
Run for cover
You and I
Holy water
Burning sky
Run for cover

I got a feeling the well won't ever dry
I got a feeling I'm luckier tonight
Despite the knowing that death won't go away
I got a feeling that I'm forever changed

You and I
Holy water
Burning sky
Run for cover
You and I
Holy water
Burning sky
Run for cover

Will it last if I hold it again
I won't be the last to find love's
Everlasting eyes find me again
I won't be the last, divine love
Make it last if I hold it again
My love's everlasting fire

You and I
Holy water
Burning sky
Run for cover
You and I
Holy water
Burning sky
Run for cover

I got a feeling my love, I got a feeling my love
I got a feeling my love, I got a feeling my love
I got a feeling my love, I got a feeling my love
I got a feeling my love, I got a feeling my love
I got a feeling my love, I got a feeling my love
I got a feeling my love, I got a feeling my love
I got a feeling my love, I got a feeling my love
I got a feeling my love, I got a feeling my love
