

# Mausoleum

Wintersleep

I play dumb  
I play dead  
In the mausoleum  
Insectivorous

Caught up in the cloth  
Wrapped up in the gauze  
Of your summer dress  
Highlight shimmering  
We dissolve in the wilderness  
We dissolve in the wilderness

I won't bite  
I won't bite  
Til you come around  
Til you lay me down  
Lay me down

Caught up in the cloth  
Wrapped up in the gauze  
Of your summer skin  
Highlight glistening  
We dissolve in the wilderness  
We dissolve in the wilderness

I won't bite  
I won't bite  
Til you come around  
Til you lay me down  
Scattering light  
Scattering light  
Eyesight dimming  
Dull-eyed specimen  
Dull-eyed specimen

Decomposed  
Metamorphosed  
In the grass of your open chest  
In the cracks and the crevices

Caught up in the cloth  
Wrapped up in the gauze  
Of that last eclipse  
Twilight glimmering  
We dissolve in the wilderness  
We dissolve in the wilderness

I won't bite  
I won't bite  
Til you come around  
Til you lay me down  
Scattering light  
Scattering light  
Eyesight dimming  
Dull-eyed specimen  
Dull-eyed specimen

I won't bite (I won't bite)  
I won't bite (I won't bite)  
Til you come around  
Til you lay me down  
Scattering light (Scattering light)  
Scattering light (Scattering light)  
Eyesight dimming
