Santa Fe

Wintersleep

Mom, I snatched your car
Well Is that your faith in Santa Fe?
Who to go on to?
If you tap me into living room

So baby give me one more night
I will release you give me some time
I will leave you mah mind
Under the pair of light
So give me the night to en-light
I will prove to you give me some time
I wanna remove me to your mah mind
It's just a pair of light

How would it be ok if you sit in silence
In Santa Fe
Spend [?] of hope
When it doesn't matter
Any fucking face

So baby give me one more night
I will release you give me some time
I will leave you mah mind
Under the pair of light
So give me the night to en-light
I will prove to you give me some time
I wanna remove me to your mah mind
It's just a pair of light

So give me the night tonight
Give me the night
So give me the night tonight
Baby tonight

So baby give me one more night
And I will release you give me some time
I will leave you mah mind
Under the pair of light
So give me the night to en-light
I will prove to you give me some time
I wanna remove me to your mah mind
It's just a pair of light

So baby give me one more night
Baby give me one more night
So baby give me one more night
Give me the night tonight
So baby give me one more night
Give me the night tonight
So baby give me one more night
Give me tonight tonight
