

Unzipper

Wintersleep

Come ride around I'll ride with you
Call out just come around
All eyes wishing their hearts for you
Lights through the city downtown
You get out
You get out

Why don't we go outside here?
My mind my saving song
My life erupts around you
Wide awake, take my hand
We get out
We get out
We get out
We get out

Unzipper my mind (mind!)
In the blankets
Are you loveless?
The material life (life!)
Are you damaged?
Are you listening?

Alright if it's alright with you
Come round in by the light
Lay down in whatever you've got for me
Taste some in my mind
We get out
We get out
We get out
We get out

Unzipper my mind (mind!)
Are you loveless?
Are you loveless?
Dematerialize (-lized!)
Are you loveless? Are you damaged?
Unzipper my mind
Unzipper my mind

All my woes I sold you blindly
Why were you
Why were you
Cover all my scripted language
How were you?
How were you?
Cut into, I don't know why you
Why you did
Why you did
Turn out all my reckless baggage
Why were you? How were you?
Chemicals spills in our bodies
Why were you?
Why were you?
Chemicals spills in our valleys
Why were you?
Why were you?

Why were you?
Why were you?
Why were you?

Unzipper my mind (mind!)
In the blankets
Are you loveless?
The material life (life!)
Are you damaged?
Are you damaged?

Unzipper my mind (my mind!)
Are you loveless?
Are you damaged?
Unzipper my mind
Unzipper my mind
Unzipper my...
