

Last Chance

Wipers

I've been watching from such a distance Inspecting fate Been waiting for just the right day to come But it just ain't come But it's just understated

I've been waiting for someone to take me down The interstate Just waiting for the winds in the road ahead To straighten straight It's your one last chance It's your one last stand It's your last chance for so long It's your last chance

Coming down just a little bit closer So I can check it out Can't you feel the heat sensors rising now It's burning space It's your one last chance It's your one last stand It's your last chance for so long It's your last chance
