

No Place Safe

Wipers

Whisper not a sound A shadow's on the rise There's no place safe
e If it can be found The way i see it You're all i know that's
safe

We all need love Deception's on the rise There's nowhere safe I
f it can be found Ahead of all the lies The way i see it You're
all i got that's safe

Can you help ne around These serpents on the ground There's no
place safe Yes it can be found So vivid on the rise It's for ou
r safe place I see it coming It's all we got that's safe
