

Resist

Wipers

Although we're not the same We all feel the same way Although we're not to blame We're always blaming someone Suit yourself Resist repression

Are we not the same Underneath the surface With all there is to gain Why are we held back so bad Teach yourself Resist suppression

I hope we're not the mistaken Don't make the same mistake We're living with deception We're on our way

Although we're not the same You're feeling cheated so bad I see you have no shame You're always shfiming someone Fix yourself Resist oppression

I hope you're not the mistaken Don't make the same mistake We're living with deception We're on our way
