Keep Exhaling

Wire

Relationship, we two darling, conversation is rather still
Inspiration is extinguished. Concentration slips far away

Extra extension prolongs a meeting
Intervention, an accident, hypertension
Brings forth a spark, introspection, confused thoughts, elabora
tion
Truth still breathing. Confrontation. Keep exhaling

Resulting action occurs at five o'clock: intervention
My love has withered. Situation: this one's quite low

I don't feel much, I don't feel at all,
I've been searching for comparisons. Yes! I'm tireless of that
way
I've been researching a Parisian, it kept me busy today
Tomorrow, I'll study Europe, by next week the world
