

## Best of Me

### Wisdom In Chains

Real as earth and sky above.  
The realest thing I ever felt was love.  
When I hold you in my arms I know it's true.  
We are born adrift in this endless mist of loneliness.  
just hold on tight to me, I'll hold on tight to you.  
We'll make it through.  
My shining star. You're the best I ever did.  
And you know I'll never quit on you.  
You lift me up so high above it all.  
You're the best I ever did.  
It pours from my pores and pools on floors  
On a stage and a mic at night on tours.  
I spit it in the face of all my friends.  
I spit it in a sea of angry men.  
So full of love, so full of hope.  
For years I thought I lost them both.  
My heart is so full.  
you save me from myself.  
My shining star. You're the best I ever did.  
And you know I'll never quit on you.  
You lift me up so high above it all.  
You're the best I ever did.
