

Burn It Down

Wisdom In Chains

Burn it down
Burn it to the ground
Raise your voices, sing it loud
Don't want to live in a prison now
Spark up a flame and burn it down

How many of you boys and girls got fucked up being no
part of this world
They single you out for your fucked up views
But then you find out they're fucked up too
You can't keep faking it, no
That's why we gotta let 'em know
Our lives are wasted but we're not gonna take it anymore

Burn it down
Burn it to the ground
Raise your voices, sing it loud
Don't want to live in a prison now
Spark up a flame and burn it down
You gotta burn!

Spark up a flame and burn it down
Burn it down (3x)
